

24DCE015

24DCE015

The screenshot displays a REST client interface with a dark theme. At the top, a search bar and an 'Invite' button are visible. Below the search bar, a list of HTTP requests is shown, with the current request highlighted: a POST to `http://localhost:5000/api/v1/mongo/doctors`. The interface includes tabs for 'Docs', 'Params', 'Authorization', 'Headers 8', 'Body', 'Scripts', and 'Settings'. The 'Body' tab is active, showing the raw JSON payload:

```
{  "name": "Dr. Hiren Shah",  "email": "hirenshah@medcare.com",  "specialisation": "Physician"}
```

. Below the request body, the response is shown in the 'Body' tab, indicating a `201 Created` status with a response time of 90 ms and a size of 468 B. The response body is a JSON object:

```
{  "message": "Doctor created successfully",  "doctor": {    "name": "Dr. Hiren Shah",    "email": "hirenshah@medcare.com",    "specialisation": "Physician",    "available": true,    "_id": "6a86ddb4754f33c6e9a9c58a",    "__v": 0  }}}
```
